

I've Got a Friend

Words and music by Matthew Browder

v.1

I've been up, I've been down
Been forsaken by those so-called friends too many times to count
But there's one through it all
Who's closer than a brother to me
He knows when something's wrong

Chorus

I've got a friend I'm not alone
He's the one that I run to, the one I'm counting on
He fights my hardest battles
Every circumstance He handles
He knows what to do to see me through
Time and time again
I've got a friend

v.2

I can call anytime
In an instant He shows up, shows out, makes everything alright
There's no love like my God
When it comes to being tough for me
He's solid as a rock

Chorus

Bridge

Isaiah prophesied that Messiah would come
Orchestrated by the Father, God's only Son
Wonderful, Counselor, Prince of Peace
Jesus, Jesus
The Savior of the world had finally arrived
Heaven seen in Bethlehem with human eyes
Emmanuel, Lamb of God, Holy Child
Jesus, Jesus
Can walk upon the waves; bring a man to His knees
At the mention of His name, demons will flee
Anointed One, El Shaddai, Mighty God
Jesus, Jesus
When He died upon the cross He defeated sin
But He rose from the dead, He lives again
Conqueror, King of Kings, Lord of Lords
Jesus, Jesus

Repeat chorus 2x
